Help determine the future of arts education for our region.

The community is gathering, with support from the Kennedy Center, to assess and make plans to ensure that any given child has the arts as part of their education. Data from community surveys, school surveys and public input will be used to create a customized long-range plan for comprehensive arts education that is equitable and sustainable.

For the purposes of this survey, arts education is defined as modes of learning based upon a variety of art forms, including dance, drama/theatre, music and visual arts. (Please include data for the current school year only).
